ABOUT ME

As someone highly motivated to continuously develop my professional skills, I am confident in my ability to generate innovative ideas and produce high-quality software solutions. I am passionate about software development and am always eager to learn new technologies and methodologies to enhance my skills and knowledge. I am confident that my skills and experience make me a valuable asset to any team. I am excited about the opportunity to contribute to a dynamic and innovative organization.

KEY COMPETENCIES

Innovative Thinking	Team Collaboration	Technical Proficiency
Software Development Expertise	Problem-Solving Skills	Adaptability
Continuous Learning	Passion for Technology	Communication Skills

EXPERIENCE

PT. Inovasi Dinamika Solusi
Junior Web Developer

2019 May - Jul

I worked as a fullstack developer, developing systems using the PHP programming language and the CodeIgniter framework. My tasks included creating and maintaining web applications, both on the frontend and backend. I also collaborated with the team to ensure the applications ran smoothly and efficiently.

Universitas Pembangunan Jaya
Fullstack Web Developer

2020 Oct - Now

As a fullstack developer, I am responsible for building and maintaining systems using PHP (CodeIgniter/Laravel), Javascript and the NodeJS framework. My role includes developing web applications from a frontend perspective using React JS and a backend perspective. In addition, I work closely with the team to ensure our applications are efficient and high performing.

EDUCATION

Bachelor of Computer Science (2020 - 2024)

Majors: Information Systems
Universitas Pembangunan Jaya, Indonesia, 3.74 / 4.00

Achievements:

- As the student with the best final project work at the study program level

Vocational School (2017-2019)

Majors: Software Engineering
SMK Tunas Media, Indonesia

Skills: PHP, Java, JavaScript, HTML & CSS

SKILLS

- Proficient in Java, JavaScript and PHP.
- Proficient in using frameworks such as Laravel, CodeIgniter, React JS, Angular, Node JS and others..
- Data Structures and Algorithms.
- Database and SQL.
- Adaptability and continuous learning.
- Development Methodology.
